MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: 1st Infantry Division and Fort Riley Fall/Winter Safety Campaign Plan 2012-2013

1. The Fall/Winter Safety Campaign Plan is designed to assist Commanders, Directors and First Line Leaders in preventing accidental injuries and fatalities. This plan identifies seasonal risks and recommends new and proven composite risk management techniques that will ensure appropriate safety programs are in effect prior to the cold weather season.

2. In FY12, 1ID experienced four Soldier and two Family member Privately Owned Vehicle (POV) fatalities. This year we want to prevent all POV fatalities. We previously achieved this goal when the division went 500 days without a POV fatality between December, 2008 and April, 2010. Leaders, especially First Line Leaders, directly influence their Soldiers' behaviors. Junior leaders must understand how to take proactive measures to reduce or eliminate risks. Empowered leaders will vigorously execute their responsibilities.

3. Preparedness for winter hazards can make for a safe and enjoyable season. The tools to implement the 1st Infantry Division and Fort Riley Fall/Winter Safety Campaign Plan are on the 1ID homepage <http://www.1id.army.mil/>. The Fall/Winter Safety Campaign Plan runs through 19 March 2013.

DONALD M. MACWILLIE
Brigadier General, US Army
Commanding 5 OCT 12
